Generator (10-23-09*)*

Delaware County Code Compliance now enforces the 2006 Residential Code of Ohio. With the adoption of the 2006 Residential Building Code there have been changes in what types of construction require approvals and what is exempt from approvals. Please see section 105 of the 2006 Residential Code of Ohio provided below as you prepare to do work on residential properties.

Please be advised that replacement of any electrical, gas, mechanical, plumbing system, other residential building service equipment, or piping system, the installation of which is regulated by this code, or to cause any such work to be done, shall first make application to the building official and obtain the required approval. This includes furnace and hot water tank replacement.

Code **2006 Residential Code of Ohio**

SECTION 105 – APPROVALS - 105.1 Required. Any owner or authorized agent who intends to construct, enlarge, alter, repair, move or change the occupancy of a *residential* building or structure, *or portion thereof, or* to erect, install, enlarge, alter, repair, remove, convert or replace any electrical, gas, mechanical, plumbing system, *other residential building service equipment, or piping system, the installation* of which is regulated by this code, or to cause any such work to be done, shall first make application to the building official and obtain the required *approval.*
