Information to Contractors and Suppliers

This list includes only products that are not already listed in the 707 section of the ODOT CMS. Contractor or supplier may use any other conduit that meets the requirements of the project's contract documents.

Requirements for inclusion on the Approved Alternate Products List

Submit to the Delaware County Engineer the following information:

1. Manufacturer's letter certifying the pipe supplied to the project will meet or exceed Departmental specifications:
 - A. Provide certified test data on the pipe showing compliance to industry material requirements including applicable ASTM or AASHTO specifications.
 - B. A quality control plan including:
 - (1) Testing frequency per production run
 - (2) Methods for assuring non specification material is not shipped out
 - (3) Typical product markings on the pipe.
 - (4) Dimensional inspection frequency and what is checked
 - C. Initial sample of two (2) pipe sections, each, of any diameter for both perforated and non-perforated, if applicable.
2. Agreement to immediately notify the Department on any changes in production, materials, dimensions, before shipment.
3. Provide the Department a contact name, number and e-mail address

Acceptance by the County Engineer

The County Engineer will review a manufacturer's submittal for compliance with specification requirements and will evaluate any pre-qualification samples. Accepted products will be listed on the Department's Approved Alternate Product List web page.

Field Documentation requirements

Products on the Delaware County AAPL will be accepted if they can be identified by the field to a supplier/manufacturer listed on the Department's Approved Alternate Products List.
